### THE KOMTEL TEAM IS GROWING

Danbury, CT, March 2010 - Komtel is excited to announce the addition of two professionals to the growing Komtel team. Their expertise brings an added dimension that enhances our ability to meet the needs of the Retail Marketing Industry.

#### **Gene McNamara -**

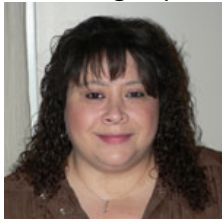

Senior Applications Developer

Gene McNamara joined the Komtel team in 2010 bringing extensive technical experience in application design, development and integration. His experience includes multiple long term contracts with IBM as the lead architect and designer for mission critical executive information systems and business intelligence solutions.

#### **Tricia Farin –**

Marketing Expert

Tricia Farin's broad reaching, in-depth knowledge and versatility in the marketing industry are key components to her proven successful track record. She brings a rare combination of creativity and analytical prowess and maintains a rigorous focus on objectives to ensure business results.

Komtel, Incorporated ([www.komtel.com](http://www.komtel.com)) is an Application Service Provider specializing in providing software solutions to the retail marketing industry. Komtel resides in Danbury, CT and has been in business since 1993.
